Dear Sutter Peak High School Student and Family,

Beginning in the Spring Semester, January 2016, we will be rolling out our High School Internship Program. This program is open to all of our High School Students if you should be interested. Our program will be available for you to enhance your resume, boost your marketability, and teach basic responsibilities of real-life jobs. As we approach local businesses, we would like to know where your interests lie as you begin to think about life beyond high school and college.

The goal of the program is to provide students with hands-on experience in a field of interest and to help them narrow-in on their abilities, form opinions about future jobs, and explore options for college and work pursuits while providing them with a valuable educational experience. Students will be matched to unpaid internship opportunities based upon their career interests and abilities with the goal of making decisions about college and future career searches. The Sutter Peak staff will assist students in connecting them with an employer and setting up the internship.

Please answer the following questions:

Are you interested in participating in Fall 2016? ________________________________

If no, please indicate when you might be interested. ______________________________

What career fields are you interested in exploring? ________________________________

What interests you outside of school? (Art, cooking, sports, photography, foreign languages, music, etc)

__________________________________________________________________________

__________________________________________________________________________

What skills or abilities do you already have? (Communication skills, keyboarding, computers, technology, attention to detail, farming skills, etc.)

__________________________________________________________________________

__________________________________________________________________________

Please return this completed form to your teacher.
